

Assignment 3

Date Due _____

Reading

Read Chapter 8 in the book

Programs

Program 1:

Write a program named wk3-1 That each time a button is clicked will generate and print 10 random integers from -10 to +10 inclusive, formatted in a list box.

Program 2:

Write a program named wk3-2 that rolls two dice 10,000 times and accumulates the sums efficiently in an array. The program will then list the sums formatted in a list box.

Store both programs in drive\wk3 folder.

Program Grading Check List Week 3

	Wk 3-1	Wk 3-2
Functions according to specification		
Output is formatted and accurate		
Correct solution folder name		
Correct form file name		
Correct control names		
Variable names and Scope		
Form comments		
Procedure comments		
Form title bar		
Option Strict On Statement		
Tab order and Tab stops		
Tool Tip Text usage		
Setting Focus in code		
Access Keys		
Menu's		
Input Validation		
Frames Usage		
Accept and Cancel buttons		
<i>Total</i>
